Hail Impact Tested Roofing

All Boral Steel panels provide Class 4 Hail Impact Resistant rated performance¹, the best rating available for roofing products. Our material is warranted for hail up to 2-1/2" inches in diameter and winds up to 120 mph², helping protect your home while adding peace of mind. According to an April 2015 analysis by State Farm, hail and wind damage cost the insurer and its policy holders more than \$2.4 billion in 2014³.

Why Steel?

Direct-to-Deck
Stone-Coated
Roofing System

89°

Attic Temperature¹

Energy-Efficient

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing Boral Steel Stone Coated Roof System with Above Sheathing Ventilation (ASV) to a common asphalt shingle installation. The result is less heat in the attic and lower energy bills.

* Attic Heat Transfer test available at www.BoralRoof.com see resources section for details.

PINE-CREST

Engineered to replicate hand-split wood shake with the durability of steel.

Shake

COTTAGE

shingle

Enhanced High-Definition two color blend that creates a clean, classic mid-profile shingle look.

GRANITE-RIDGE

shingle

A low-profile high wind resistant shingle that adds long-life and beauty.

BARREL-VAULT

Tile

The traditional look of High-Barrel Spanish tile that enhances your home's curb appeal.

*Contact Customer Service to verify availability and confirm the FOB point.

The printed colors shown in this brochure may vary from actual available tile colors. Always use actual product samples for color selection.

PACIFIC

tilt

Mediterranean Villa, medium profile tile that emulates the traditional style of southern Europe.

Have you considered what is underneath **Boral Steel™ Cool Roof System**

These components provide energy efficiency

Shown in PINE-CREST Shake Charcoal

Above-Sheathing Ventilation (ASV)

Hot air always rises and creates a natural convection effect. This allows the heated air to be exhausted through ventilation, which causes a continuous airflow across the roof deck. The result is a cooler attic and living space in the home.

No matter the install method, direct-to-deck or EBS battens, a Boral Steel™ Stone Coated roof with ASV can help provide energy savings compared to asphalt shingles.

The Oak Ridge National Laboratory (ORNL) conducted a 12-month study on the effects of high IR pigments vs. metal roofs installed with an airspace*. The study showed that EBS or ASV can reduce heat flow into a building by nearly 30%. This can lead to an increase in year-round energy efficiency by reducing heat gains during the summer and heat losses during the winter. These dramatic results prove Boral's ASV is just as important to achieving energy efficiency as reflective roofs.

your roof?

and give great return on your investment.

EBS Batten

Direct-to-Deck

Continuous Ridge Vent

Hot air rises and is vented off the roof.

Boral® Elevated Batten System™ (EBS)

STONE COATED ROOFING

ABOUT BORAL ROOFING

Boral Roofing LLC is a subsidiary of Boral USA and is the country's largest premium provider of complete roofing and re-roofing solutions for architects as well as commercial and residential builders. Boral Roofing operates manufacturing plants throughout the U.S.

ABOUT BORAL NORTH AMERICA

Headquartered in Roswell, Georgia, Boral North America is a leader in key construction materials and building products markets with operations across the USA, Canada and Mexico. In 2017 Boral acquired Headwaters Incorporated, expanding Boral's product offering and manufacturing and distribution footprint across North America. In construction materials, Boral has a national footprint and industry-leading position in the processing and distribution of fly ash – a by-product of coal combustion.

In building products, Boral manufactures and supplies cladding, roof tiles, windows and other light building products for residential and commercial markets nationally. Boral's manufactured stone veneer includes leading brands Cultured Stone® by Boral®, Boral Versetta Stone®, Eldorado Stone™, Dutch Quality Stone and StoneCraft. Boral's light building products portfolio includes Boral TruExterior® Siding & Trim – a pioneer of the innovative poly-ash category of exterior building products – as well as shutters, gable vents, mounting blocks and tool systems. In roofing, Boral is a leading manufacturer of clay and concrete roof tiles, and also produces composite polymer and stone-coated metal roof tiles.

Boral also has a 50% share of the Meridian Brick joint venture, a leading clay and concrete brick manufacturer which was formed with Forterra Brick in 2016.
